Sir,

The Executors & myself have been from home for some time, & on our return are extremely surprised to find no notice has been taken of my last letter.

In order to avert as much as possible law-suit I am induced once more to attempt a pacificatory measure by drawing upon your house for the small sum of £100 at two months, after date.

I remain, Sir,

Your very ob.t hb.l serv.t

W.W. Wethering.

The Lurches,

May 31. 1800.

Wm Withering a Physician & wrote on
Botany Born 1741 Died 1799 —
Born at Wellington in Shropshire studied at
Edenburgh. Practice at Birmingham & Stafford
His chief work is "a systematic arrangement
of British Plants" &c
